JINIL TAILOR

AI-Focused Software Developer | Full-Stack Web Development

Vadodara, Gujarat, India | jiniltailor06@gmail.com | +91 9408329866

LinkedIn | GitHub

PROFESSIONAL SUMMARY

BCA graduate in Artificial Intelligence with practical experience in full-stack web development and application development. Skilled in Python, Java, JavaScript, Flask, PHP, Laravel, SQL, API integration, and AI-enabled application development. Experience includes developing a student management application and local admin website, e-commerce website management, and a full-stack web development internship. Built six working projects spanning AI-assisted education, healthcare, e-commerce, transportation, student management, and mobile applications. Interested in postgraduate study and further development in Artificial Intelligence and Machine Learning.

EDUCATION

Bachelor of Computer Applications (BCA) in Artificial Intelligence

Parul University | 2022–2025

CGPA: 7.49/10

Higher Secondary Education — Commerce (Class 12)

Shree Maharaja Rajendrasinhji Vidhyalaya | 2021

Result: 60.30%

Secondary Education (Class 10)

Shree Maharaja Rajendrasinhji Vidhyalaya | 2019

Result: 75.64 PR (as reported; verify official notation)

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript
Web Technologies: HTML5, CSS3, Bootstrap
Backend Development: Python Flask, PHP, Laravel, API Integration
Databases: SQL, SQLite, Firebase Firestore
AI Integration: Gemini API, OpenAI API, AI Chatbot Development
Android Development: Android Studio, XML
Development Tools: Git, GitHub, Visual Studio Code
Data Handling and Reporting: Excel Export, PDF Generation

PROFESSIONAL EXPERIENCE

Student Management System Developer

Supreme Tuition Classes | 1 May 2025 – 30 June 2025

- Developed a student management application using Android Studio, Java, and XML.
- Built a local admin website using Python Flask, HTML, CSS, and JavaScript, allowing administrators to access and manage information through a browser on the local host.

E-commerce Website Management Assistant

TheShopIsland.com | 14 November 2025 – 21 January 2026

- Worked in an e-commerce website management assistant role.
- Contact email provided: khusiya.com@gmail.com.

Full-Stack Web Development Intern

Baroda Institute of Technology | *Vadodara, Gujarat, India* | December 2024 – April 2025

- Designed and developed user-friendly front-end interfaces for web applications.
- Contributed to website performance optimization and interface improvements.
- Gained practical backend development experience using PHP and Laravel.
- Applied full-stack development concepts and strengthened software development and problem-solving skills.

PROJECTS

Vocab Master — AI-Driven Vocabulary Learning Platform

- Built an AI-driven vocabulary learning platform using Flask for backend logic and Firebase Firestore for real-time data storage.
- Developed a responsive interface optimized for desktop and mobile environments.

Cab Booking System

- Built a digital ride-booking platform designed to connect passengers and drivers.
- Project functionality focuses on ride booking, driver tracking, and payment management.

AI-Integrated Healthcare System

- Built a healthcare application combining patient services and AI-assisted features.
- Included functionality for appointment booking, chatbot assistance, patient management, and feedback collection.

Sporto — E-commerce and Stock Management System

- Developed a sports e-commerce platform supporting product browsing, shopping cart operations, and order tracking.
- Implemented inventory-management workflows and role-based access for customers, sellers, and administrators.
- Included product-management and stock-related workflows.

Student Management System

- Built a website for organizing student, faculty, and administrative records.
- Focused on centralized information management for educational institutions.

STC Data Management — Mobile Application

- Built a mobile application combining educational assistance with student data management for Standards 7–12.
- Integrated AI-oriented features for image-based problem solving and voice interaction.

CERTIFICATIONS AND TRAINING

- Machine Learning Using Python — Simplilearn, September 2024
- Introduction to Artificial Intelligence — Simplilearn, June 2024
- Android App Using Kotlin — Spoken Tutorial, IIT Bombay, February 2024
- Python 101 for Data Science — Cognitive Class, September 2023
- Python 3.4.3 Training — Spoken Tutorial, IIT Bombay, July 2023
- Computer Fundamentals and Advanced Excel — Parul University, May 2022
